FIGHTING AT MANILA

Will Probably Begin This Week Unless Augusti Concludes to Surrender.

AGUINALDO GETS READY TO RULE

Appoints a Cabinet for the Philippine Republic—Small Prospect for Union Between the Various Native Tribes—United States Troops Quarantined Near Manila—Spaniards Buoyed Up by False Hopes—Old Glory Hoisted on Another Island in the Pacific.

Manila, July 18, via Hong Kong, July 22.—Unless the Spaniards surrender in the meantime Rear Admiral Dewey will bombard the fortifications of Manila by the end of this week, provided the troops are ready to take possession immediately. The First regiment is already in the field at Paranaque, two miles from Manila. The Spaniards are reported to have been buoyed up by the hope that the Cadiz fleet, due here on the 16th, would arrive soon, but the news of the destruction of Admiral Cervera's squadron, brought yesterday by the Japanese cruiser Yamatai, may lead them to surrender. The insurgents

GENERAL ANDERSON.

are constantly harassing the Spaniards on both sides of the city, but they are checked by the big guns of the Malate and Santa Misa forts. The second detachment of the American expeditionary force arrived in excellent condition, though four died on the voyage.

Aguinaldo Forms a Cabinet.

Letters received here from Cavite, dated July 18, say that the American transports have hoisted the American flag on an island supposed to be Watts Island. General Aguinaldo has organized the Philippine cabinet at Bacoor, with the following personnel: President of the council, General Aguinaldo; secretary of war, Baldomero Aguinaldo, nephew of General Aguinaldo; secretary of the interior, Leander Baria; secretary of state, Mariano Trias.

A Cavite letter dated July 17 says that General Anderson has quarantined the California battalion at Paranaque, several miles from Manila. The blockade is effective and mails are not allowed to enter Manila except by warships.

Will Never Return to Spanish Rule.

A Spanish steamer, the Vesol, having on board a native crew from the Visayas islands, southern rs. is now in the hands of the insurgents. The crew revolted, killed the Spanish officers, and reached Tavao in the southern part of the island of Luzon, but there they quarreled with Tagalog insurgents and returned to Boilo, which is looked upon as indicating that the Visayas are unwilling to join the Tagalogs. In any case it is considered certain that the Philippine islands will never be amalgamated, and that they will never return to Spanish rule. Therefore the only alternative, in the opinion of the best informed people here, is foreign rule, American or British.

It is Probably "Wake" Island.

London, July 22.—A dispatch to The Times from Cavite refers to the island over which the American transports are said to have hoisted the American flag as Wake Island, which is in the Marshall group in Micronesia, comprising the Badack and Ballick chains. Probably "Watts" is a cable error.

NATIVES HAVE SWELLED HEADS.

Wildman Needed at Cavite to Restrain Aguinaldo—Heavy Fighting.

London, July 22.—The correspondent of The Times at Cavite, telegraphing July 17, via Hong Kong, says: "The developments of the political position confirm the belief that the natives are suffering from 'swelled heads,' and are likely to cause trouble to the Americans, whose preparations keep this contingency steadily in view. It is reported that in an attack upon Malato today the rebels lost fifty killed during a charge. A party were surrounded by Spaniards and slaughtered to the last man."

The Hong Kong correspondent of The Daily Mail says: "General Aguinaldo's cabinet took the oath of office at Bacoor on Sunday in the presence of 5,000 natives. A fireworks display followed. Aguinaldo is restless under American restraint and wants to capture Manila. United States Consul Williams, who is at Cavite, has written to United States Consul Wildman here, strongly urging him to come to Cavite and reason with Aguinaldo, with whom he has great influence. Wildman starts at the end of next week."

The Manila correspondent of The Daily Mail under date of July 16, commenting on the "state of anarchy among the rebels," says: "Each local chief desires to become the supreme ruler of his island. It is pitiful to think that a nation like the Spanish has been beaten by such miserable specimens of humanity. American inactivity is telling on the natives in the rebel districts. Food is plentiful, but there is no money to purchase it and no way to distribute it."

The correspondent of The Times also says: "I visited the rebel entrenchments, which are less than a mile outside the Spanish lines, at Malato. I found the rebels well armed. They are provided with Mauser rifles and have two field pieces. They are gradually forcing the Spaniards back."

"The Spanish prisoners are well treated by the rebels, but they are all terribly exhausted and emaciated. Some

of them are suffering severely from fever. The prisoners at Cavite complain that they receive insufficient food, but the rebels are unable to obtain better. I have visited all the prisons and hospitals. I found their condition extremely filthy.

"The surgical and medical treatment was primitive. Since the arrival of General Anderson's brigade, however, the prisoners have been employed in cleaning and other sanitary work, and there has been a marked improvement all around. On July 15 there was heavy fighting around Fort Malato. General Anderson moved 300 of the First California volunteers, under Lieutenant Colonel Dubose, forward to Paranaque, several miles from Manila, behind the rebel lines. On the following day there was renewed heavy fighting around the city."

POSSE FIGHTING TRAIN THUGS.

Seventy-Five Shots Exchanged with a Result Yet Unknown.

Fort Worth, Tex., July 22.—The south-bound Santa Fe passenger train due here at 10:20 last night was held up near Saginaw, eight miles north, by masked men. The robbers ordered the engine run to North Fort Worth, three miles from the city. The sheriff's posse, city officials and armed citizens went to the scene on a yard engine.

Reports reached here that some seventy-five shots were exchanged between the robbers and officers. Owing to the lateness of the hour no definite details can be learned.

Later, two men just brought in the engine of the held up train. The cab is literally perforated with bullets and covered with blood. The engineer is fatally wounded and the fireman is missing. One of the officers is also said to have been killed in the melee. The robbers failed to get into the safe, but they all escaped—six in number.

JUST SPLIT THE DIFFERENCE.

Decision of the Arbitrators in the Mine Wage Difficulty at Pana.

Springfield, Ill., July 22.—The state board of arbitration last night decided the case of the striking miners at Pana by awarding the miners 33 cents per ton, gross weight, and recommending that certain orders which the coal companies at Pana have been issuing to their employees and then discounting 6 per cent, when they were cashed be discontinued.

The scale awarded by the board of arbitration is 7 cents per ton less than the scale adopted at the Springfield convention, and 7 cents more than what the operators were paying when the mines shut down last April before the Springfield convention.

Scores on the Diamond.

Chicago, July 22.—Scores made yesterday at base ball by League clubs were: At Philadelphia—Chicago 1, Philadelphia 3; at Baltimore—Cleveland 6, Baltimore 3; (second game) Cleveland 7, Baltimore 1; at Brooklyn—Louisville 5, Brooklyn 2; (second game) Louisville 7, Brooklyn 4; at New York—Pittsburgh 2, New York 1; (second game) Pittsburgh 7, New York 11; at Washington—Cincinnati 12, Washington 6; (second game) Cincinnati 7, Washington 4; at Boston—St. Louis 1, Boston 7.

Western League: At Indianapolis—Minneapolis 4, Indianapolis 13; at Detroit—St. Joseph 2, Detroit 3; at Duquesne—Columbus 1, St. Paul 2; at Milwaukee—Kansas City 7, Milwaukee 3.

Old Man Lost in the Woods.

Ashland, Wis., July 22.—Helge Hanson, an old man 76 years of age, left Monday afternoon with his wife to pick berries in the vicinity of the fair grounds. He and his wife became separated, and she returned home about supper time, thinking that her husband had returned also. He did not return and a posse started out to make a search. They have scoured the woods since Monday evening, but no trace of him can be found.

Short in His Accounts \$30,000.

Milwaukee, July 22.—It was learned last night that John Harvey Myers, secretary of the Home Building and Loan association, of this city, is short in his accounts to the amount of \$30,000. The money is said to have been squandered in unfortunate real estate transactions.

Much Damage by the Storm.

Nellisville, Wis., July 22.—As the returns of Tuesday's storm come in it becomes apparent that the damage resulting is almost incalculable.

BIG RACE TOMORROW.

Royalton Farmer Teams in Training.

The Prize Bedroom Set Admired.

Farmer Wants It for a Wedding Present.

Great interest is being centered in the race to occur tomorrow morning between the farmers of Royalton township from the new river bridge to C. J. Peck's furniture store on East Main street. The rigs designed to be used by the rules of the contest are to consist of two horses and a lumber wagon. The prize to be awarded the winner is the handsome \$50 bedroom suite now on display in the window of Peck's store.

Chicago Chronicle on the Gold Democrats.

During the campaign of 1896 the Chicago Chronicle, gold democrat, abused "Billy" Bryan and the silver men shamefully. Now it is crawling into the silver bandwagon. In a long editorial printed yesterday the Chronicle closes with this sentence:

"If Palmer democrats can swallow the Dingley law, subscribe to McKinleyism and accept, at least condone, the leadership of Hanna, they are ripe for active membership in the republican party."

MICHIGAN SOLDIERS - - -

...English Paper Stops to Give Them Praise

The London Spectator argues that the present war has shown the efficiency of citizen soldiers, after very short drill. Hereafter it may not be necessary to keep huge standing armies. The Spectator adds:

Englishmen are ceasing to be the unlicked cubs whom it took 12 months to teach how to eat. Would Lord Roberts or Lord Wolseley really object to take the London Scottish volunteers under scientifically trained officers into a serious action?

We rather think they would very much like to be followed by such men as compose the regiment from Michigan which fought before Santiago on Friday last; and if they would, a great many of the difficulties of the nations may receive an unexpected solution.

are much excited over the contest and they are training their horses for the contest. They drive down to the city, take a look at the rich prize and then go home and speed their horses.

One farmer was in the city yesterday with a fine looking team and he informed Mr. Peck that he was going to win the prize. "The off horse in that team," he said, "has always run away from everything in Royalton and the night one is no slouch. I'll not bring down my wife or the children and shall make the trip strictly for business."

Another farmer was inspecting the prize yesterday and he remarked that he must win the furniture. His daughter was soon to be married and he was not financially able to provide the sort of a wedding present he desired to give her. The \$50 bedroom suit would just fill the bill.

The distance from the bridge to the city is 4 miles and a little over and it is thought that the distance will be covered in from 20 to 25 minutes. As the tickets will not be given out until 9:45 it will be 10:05 or 10:10 before there is a cloud of dust raised on Pipestone street and Colfax avenue.

The Evening News Newsboys' band will play for the exercises that will follow the close of the contest and City Attorney Hicks will make an address full of the wit and eloquence for which he is widely noted.

MAY COME HOME.

AT ANY RATE COMPANY I WILL NOT FIGHT PORTO RICO.

Thirty-Third Michigan May Possibly Be Sent to Mountains of North Carolina for a Month.

A cablegram from Santiago says that Gen. Shafter has opened a cable office there and is in communication with Washington regarding the disposition of the 5th army corps. Except the 3rd and part of the 34th Michigan, none of the latter have been in action, but are all camped in the same place and so far as health considerations go Gen. McKibben seems to have held the opinion that the 5th corps could join the Porto Rico expedition.

But the condition of the men now, according to the physicians and commanding officers, is such that the entire corps should return north at once. Gen. Miles has cabled that he does not want, and will not need a single man among them, and he believes that after their hard campaign they should be given a rest of at least two or three weeks. The doctors say the men should be sent into camp in the mountains of North Carolina or western Maine for a month. Washington agrees to this.

The cavalry division has been sent into the mountains, at its own request, to see if it cannot get into shape to join Gen. Miles and if no fever develops the men may go to San Juan or Porto Rico.

All our men are now encamped on

A POOR SHOT.

Niles Man Shot Twice But Missed Burglars.

Niles, July 22.—A burglar made an attempt Wednesday night to get into the residence of George Ely, but was discovered and Mr. Ely fired two shots at him. About 10 o'clock the same night three young ladies who were returning from Buchanan on their bicycles were stopped by a man, who pulled one of the girls off her bicycle. A young man, also coming from Buchanan, appeared at that moment, and when he displayed a revolver the ruffian disappeared.

A Stubborn Disease.

RHEUMATISM CLINGS TO THE SYSTEM WITH AWFUL TENACITY.

Easily Cured With Gloria Tonic—A New and Wonderful Remedy.

An astonishing number of men and women well along in years have been cured of rheumatism by the new remedy, Gloria Tonic. Most of these cases have lasted many years, twenty, and in some instances forty years marking the period in which rheumatism has clung to their systems with awful tenacity. One of these cases is illustrated by the following letter recently received: "Your favor received and would say your Gloria Tonic cured me after suffering for 22 years, for which I am very thankful. I would have written about this sooner but wanted to wait and see if my rheumatism would return but have not been troubled with it since, and can recommend it to everybody with a clear conscience. Julius Beltin, Lanona, N. D., Oct. 20, 1896."

Gloria Tonic is compounded for rheumatism only and cures all cases whether mild or severe, driving out all poisonous acids from the system, making the cure complete. Prepared by John A. Smith, 220 Summerfield Church Building, Milwaukee, Wis., and sold by all druggists at \$1.00 a box.

Mr. Smith finds that by first sending a sample or trial package of Gloria Tonic as a test that he invariably gets an order for more of the remedy. By sending your name and address he will mail you a trial package free, and you can get more of it at your druggist's.

"Blackbeard."

Mr. Frank R. Stockton, in his serial, "The Buccaneers of Our Coast," in the May St. Nicholas, says: About this time one of the most famous of sea-robbers was harassing the Atlantic coast of North America, and from New England to the West Indies he was known as the great pirate "Blackbeard." This man, whose real name was Teach, was a terrible fellow in appearance as well as acts. He wore a long, heavy black beard, while it was his fancy to separate into tails, each one tied with a colored ribbon, and often tucked behind his ears. Some of the writers of that day declared that the sight of this beard would create more terror in any port of the American seaboard than would the sudden appearance of a fiery comet. Across his brawny breast he carried a sort of sling, in which hung not less than three pairs of pistols in leathern holsters, and these, in addition to his cutlass and a knife or two in his belt, made him a most formidable-looking fellow. In the early part of the eighteenth century Blackbeard made his headquarters in one of the inlets on the North Carolina coast, and there he ruled as absolute king, for the settlers in the vicinity seemed to be as anxious to oblige him as the captains of the merchantmen were anxious to keep out of his way.

Why Princeton Appealed to the Cleveland. "Shortly after the removal of the Cleveland family to Princeton an unmarried lady, a close friend of Mrs. Cleveland, was visiting her," writes a close friend of the former mistress of the white house in the Ladies' Home Journal. "One day while the two women were in the nursery with the three little Cleveland girls, the friend said jokingly to Mrs. Cleveland: 'Mercy me, Frances, how are you ever going to get all your daughters married off? You see from me that mamma could not do it in New York!' 'Exactly,' replied Mrs. Cleveland. 'But what better place could there be than a college town like Princeton, I should like to know.'"

IN the present war Spain's navy did achieve one notable victory and that when the Cape Verde fleet failed to find Capt. Clark and the Oregon.

GOVERNOR Pingree was about right when he criticised the action of the war department in recruiting the companies of the 33d and 34th regiments up to their full strength. The boys recruited by Sergeant John Bell were taken to Camp Alger and left there, while the main portion of Company I was rushed into Santiago. Now the boys of Company I are to be sent home on a furlough and will probably see no more service. If the recruits ever go to war it will be with a company from some other place.

THE addition of the Philippines and Ladrone Islands and Hawaii and Porto Rico to United States territory will undo the "crowded" condition of this country. The ultimate conclusion of Cuba will be that she will become a state in the union. With improved legislation to place the tax burdens on those able to pay them the new United States will contain the happiest and most prosperous people of the world in any age. Even with the present unequal system of distribution the revolution which for several years has been threatening will be postponed for several generations. The war will be worth all it cost. The position of the jingo has been vindicated.

THE total strength of the United States army to date is 227,000. Of this number 44,000 are regulars and 183,000 are volunteers. There are 15,000 vacancies under the second call for volunteers and the regular army is about 18,000 short of the number authorized by law. Twenty-five out of the thirty-three states called on to furnish additional volunteers have failed to recruit the required number. North Carolina has shown practically no interest in responding to the second call, as only 55 enlistments, or seven per cent, have been made to fill the quota of 783 required. Indiana, Minnesota, New Jersey, Missouri, New York, West Virginia and Wisconsin have exceeded their quotas.

MILES HAS STARTED.

With 3,000 Men He Has Gone to the Next Scene of the War Against Spain.

TAKES ALONG A STRONG CONVOY,

Including the Battleship Massachusetts—Altogether 10,500 Men Are Now on the Way to the Island of Porto Rico—Watson's Squadron Will Get Off to Spain as Soon as Possible Regardless of European Views of the Movement—Dewey Makes a Brief Report from Manila.

Washington, July 22.—General Miles, leading the military expedition against Porto Rico, started at 3 o'clock yesterday afternoon from Siboney, Cuba, for the point on the island of Porto Rico where it is the intention that the troops shall land. It is expected that General Miles will wait at some appointed spot on the route for the expeditions from Tampa, Newport News and New York to fall into his column. These expeditions are already under

LIEUT. COM. WAINWRIGHT.
Commander of the Gloucester.

way, some of them with two or three days' start of General Miles, so that the delay should not be very great. After all the difficulty about the naval convoy, and the first conclusion of the naval authorities that none was necessary, the strength of that now furnished is surprising. There is the battleship Massachusetts, the protected cruiser Cincinnati, the gunboat Annapolis, and four efficient vessels of the auxiliary navy—the Gloucester, the Wasp, the Leyden and the Dixie.

Ten Thousand Men There in Three Days.

Secretary Alger believes that General Miles on the Yale will arrive at his destination Sunday morning with 3,000 men under his immediate command. A day later will come 4,000 men on transports, and the day following that 3,500 more. Whether the landing will be deferred until the arrival of this entire force, or whether General Miles will take the initiative and hoist the flag himself on Porto Rican soil is left to the discretion of that officer. General Schwan's brigade, comprising the Fifth, the Eleventh and Nineteenth United States Infantry, a splendid body of trained soldiers, sailed from Tampa yesterday to join General Miles.

Delays Watson's Trip to Spain.

Secretary Long said last night that preparations for dispatching the Watson squadron to European waters were going on uninterruptedly, but that the departure necessarily would await the movement of the warships at Porto Rico, the Massachusetts and others being required for conveying the troops to Porto Rico. Neither the state nor navy department looks for any embarrassment from European quarters outside of Spain as a result of the naval

THE GLOUCESTER.

movement against the peninsula. Had the army troops been able to go to Porto Rico with a naval convoy the Watson squadron could have got away within the next few days. The delay of the Watson squadron is incident, however, to conveying of the troops to Porto Rico, and does not mean that the start will be postponed until the Porto Rico operations are concluded.

BRIGADE ORDERED TO MARCH.

Chickamauga Boys Receive the News with Frantic Delight.

Chickamauga Park, Ga., July 22.—Last night it looked as if at least two-thirds of the troops at Camp Thomas were to be ordered to the front as an expeditionary force to go to Porto Rico under General Brooke. The movement will begin today, when the Second brigade of the First division, First corps, commanded by Brigadier General Haines, will leave for Newport News. This brigade received marching orders a few minutes before 6 o'clock last evening. The regiments of the brigade are the Fourth Ohio, Third Illinois and Fourth Pennsylvania. The order to move was greeted with intense enthusiasm. The regiments of the brigade joined in yells of frantic delight, and the regimental bands discoursed national airs.

This brigade is the only organization that will leave the park today, but if there is not a sudden change in the plans as they are understood here at this writing the entire First corps will follow, the different brigades going out as rapidly as transportation can be arranged.

But for the lack of transportation the reserve hospital corps, reserve ambulance company, four batteries of light artillery and the signal corps would have been ordered out today. The batteries are A of Illinois, B of Pennsylvania, A of Missouri and the Twenty-seventh Indiana. They will, however, follow not later than Saturday, and by that time the arrangements will have been completed for a steady movement day by day until the entire force is out.

While General Brooke in person had nothing to give out for publication one of the most prominent and best posted officers of the First brigade admitted that it was the purpose to move the entire corps, which numbers about 36,000 officers and men. The regiments of the corps are: Fifth Illinois, Third Wisconsin, First Kentucky, Third Illinois, Fourth Pennsylvania, Fourth Ohio, Sixteenth Pennsylvania, Second Wisconsin, Third Kentucky, Thirty-first Michigan, One Hundred and Sixtieth Indiana, First Georgia, Sixth Ohio, One Hundred and Fifty-eighth Indiana, First West Virginia, Second Ohio, First Pennsylvania, Fourteenth Minnesota, Twelfth Minnesota, First South Carolina, Fifth Pennsylvania, Eighth Massachusetts, Twenty-first Kansas, Twelfth New York, Ninth Pennsylvania, Second Missouri and First New Hampshire.

SOME TIME NEXT WINTER.

Is as Early as Col. Foster Looks for Peace—Washington Views.

Washington, July 22.—No progress has been made in the direction of peace. John W. Foster, ex-secretary of state and an expert in Spanish diplomacy and politics, is of opinion that the outlook for peace is still pretty remote. "I look for peace some time next winter," he said. "The men who are now at the head of the government of Spain are not disposed to sue for peace or take the initiative in any way under existing conditions. The cabinet situation is such that some decided changes must take place in local affairs before the first real steps will be taken toward the conclusion of hostilities."

Without any very tangible reason there has been a notable diminution of the optimistic expressions among officials to the effect that an early peace might be looked for. Possibly this temporary depression is explainable by the fact that private advices, entirely unofficial in character, from sources of information in Europe, indicate that the situation in Spain is such that there is no present hope of overtures from Spain. It is apparent to the officials that the peace party in Spain still feels itself too weak to insist upon demanding peace. It is probably working in a quiet way to educate the Spanish people up to the point where they can contemplate with resignation the acceptance of the minimum peace conditions that might be expected to form the basis of the United States demands.

The warning notes from Europe, conveyed through reputable newspapers, that the United States is not to be left free to conduct a campaign in Europe, are interpreted in some quarters as really the only hopeful signs visible looking toward the beginning of peace negotiations. Bearing in mind the well-recognized reluctance of the European nations to allow any interference with the balance of power in Europe it is assumed that the neutral nations may now be spurred on by knowledge of the approach of Watson's eastern squadron to make the strongest representations to Spain in the direction of peace.

MISS JESSIE ORDERED HOME.

Young Woman Who Was Going to See Queen Christina and Talk Peace.

Milwaukee, July 22.—The Sentinel this morning says: Miss Jessie Schley, of this city, who left Paris yesterday for Madrid to interview the queen regent of Spain and Premier Sagasta in an endeavor to bring about peace between the United States and Spain, has been told to come home immediately by her father, Charles Schley, who is a cousin of Commodore Schley. In a letter written to his daughter Mr. Schley told her that her plan was not only impracticable, but so absurd as to be farcical. "I wrote her," continued Mr. Schley, "that her action would embarrass the commodore, bring about no good results, and give her a notoriety which would not only be unpleasant to her but to us all."

"I am very sorry that her unwarranted action has created so much publicity for her, and no good can come from it. My daughter is of a warm, sympathetic nature, and while abroad she got in with one of the peace societies, of which there are several. She has always been enthusiastic for any philanthropic movement, but I do not endorse her course in regard to this. She will come home immediately."

Sick and Wounded Soldiers.

New York, July 22.—Among the sick and wounded soldiers brought by the Seneca are the following: H. Sims, Thirty-third Michigan; Captain William E. English, U. S. A., of Indiana; H. Burleigh, Thirty-fourth Michigan; Lieutenant Lawless, Thirty-fourth Michigan; H. Eaton, Thirty-third Michigan; C. M. Courville, Thirty-third Michigan; C. W. Walgamoot, Thirty-third Michigan; F. W. Pope, Thirty-third Michigan; B. Haight, Thirty-fourth Michigan; B. E. Bryan, Thirty-third Michigan; J. W. Bode, Robert Smith, J. L. Monahan and B. Powell, Thirty-third Michigan.

Illinois Troops Are Mustered In.

Springfield, Ill., July 22.—At noon yesterday there was not a soldier, officer or private in camp at Springfield that was not a part of the volunteer army of the United States. Shortly before noon the officers of the Eighth appointed by Governor Tanner were sworn in by Major Ballou. The ceremony was performed in the dome building and was witnessed by a large number of people. At the conclusion of the ceremony the colored band played "The Star Spangled Banner" and "All Hail to the Chief."

Gen. Duffield To Be Sent Home.

Washington, July 22.—Instructions have been sent to General Shafter to have Brigadier General Duffield sent north to the United States, the medical reports indicating that his convalescence would be very much hastened by a cooler temperature.

Of Chicago, Ills., Office Masonic Temple,

WILL BE AT

Lake View Hotel, St. Joseph, July 18-19-20,

The doctor will deliver a lecture to ladies Monday and Tuesday afternoons from 2:30 to 3:30, Lake View Hotel, and at the same hour at Hotel Benton, Benton Harbor, Thursday and Friday afternoons.

Dr. Clements will visit your city every 30 days for a year. A record will be kept of your case at the home office, suite 1,008, Masonic Temple, where all information can be had.

He can be consulted from 9 a. m. each day and evening at Lake View Hotel and Hotel Benton. Special attention will be given to the following diseases:

Eczemas, Dropsies, Chronic Eruptions, Malignant Blood Poison, Scrofula, Tumors and Diseases of Women, Diabetes, Bright's Disease, Gonorrhea and Syphilitic Rheumatism, Glandular Disease. Also So-Called Heart Diseases.

And other forms of disease usually considered incurable. His visits should be remembered by all afflicted. Desperate cases of the above diseases especially invited, as Dr. Clements' record in these so-called incurable diseases is an enviable one.

Dr. Clements is the physician who cured E. D. Miller, formerly proprietor Hotel Bucklin of Elkhart, Indiana, after he was given up by nine leading physicians, among the number Prof. Lyman, of Chicago. Mr. Miller had dropsy, was tapped ten times, taking from him as much as seven gallons of water at one time. He was sick two years and is now at St. Joseph the picture of health.

Extract from Letter of Hon. Frank Burchell, Mayor of Oregon, Illinois: "It is with pleasure I recommend to you Dr. Henry C. Clements. He was my family physician for several years. As such was always successful in his practice, that he will honestly and faithfully discharge the trust you may place in him I am certain." I am truly yours, FRANK S. BURCHELL, Mayor.

Extract from Letter of C. H. Betchener, Sheriff of Ogle County, Illinois: "By my long acquaintance and personal knowledge of Dr. Henry C. Clements as an able and practical physician and surgeon I cordially recommend him." C. H. BETCHENER.

Extract from E. E. Reed's Letter, formerly Treasurer of Ogle County, Illinois. "This is to certify that I am personally acquainted with Dr. Henry C. Clements, having known him for years in the capacity of family physician, and it gives me pleasure to say, as a man I believe Dr. Clements to be worthy of all confidence. As a physician his attainments are rare and his success while here almost phenomenal." Very Truly Yours, E. E. REED, County Treasurer.

THE Evening News Newsboys' band will render a fine program of choice music at Eastman Springs next Sunday afternoon commencing at 2 o'clock. The public is invited to visit this resort which has received many improvements during the last two years.

LESTER & Kent's moving pictures at the bicycle track attracted a fair sized audience again last night and commencing tonight the management have decided to place the price of admission at 10 and 15 cents instead of 15 and 25. At these prices a good crowd is assured.

ARTHUR Robinson is a new driver employed by A. E. Nichols on one of his drays. Yesterday morning Robinson backed up to the West Michigan station in a stall usually occupied by Tom Fitzsimmons' dray. Fitzsimmons attacked Robinson with words and then struck him. A warrant for Fitzsimmons' arrest was sworn out by Mr. Nichols and it cost the former \$5.00 to settle in Justice Kimball's court.

AT this evening's performance at the bicycle track the famous moving picture "The Charge of the French Chirassiers" will be shown. This is an imported view taken by the famous firm of Lumiere Bros. of Paris, France, and was shown at the Schiller theatre, Chicago, for a season of more than eight months and created intense enthusiasm. Thousands of people have paid 75 cents admission simply to see this wonderful specimen of the photographer's art. The mounted troops are seen in the distance rapidly galloping toward the audience and a moment later they are standing "at attention" apparently so close their features are plainly seen. The one scene is well worth the price of admission. In addition some 25 or 30 other views will be shown all of which are most interesting and up to date animated scenes, patriotic, pathetic, comic and exciting.

An Amazing Wasp Trick.
Dr. W. L. ... (Colwyn Bay) narrated an extraordinary experience he has had with a deaf patient, who had been deaf in one ear for more than a year. On examination with the speculum he saw a dark mass which, after a long time, he dislodged. To the surprise of himself and the patient, it consisted of a wasp of a small size in perfect condition, including wings, except that the last joint of the abdomen was missing along with the sting. Now came out the history. Three years ago last July Miss C. was looking at some combs from a wasp's nest which her young brother had captured, when one of the young wasps flew into her ear and she heard a buzzing, but afterwards as the disturbance ceased she thought it had escaped and took no further notice of the matter, as there was no deafness till about two years after in that ear. Probably the insect was too young to sting and became surrounded with wax, which preserved it like a fly in amber. After the removal of this remarkable foreign body, the hearing was perfect.—Science Siftings.

STUMP PENCILS MASCOTS.

Members of Gotham's Stock Exchange Sequestered About Lead Sticks.

"Talking about hoodlums and maseots," said a member of the Stock Exchange, "the boys on the floor of the exchange are as superstitious as a lot of sailors. If you don't believe it, you look at the lead pencils they are using the next time you are in the building."

"You won't find a man using a long lead pencil. Why? Because a long pencil is a 'hoodoo' of the worst kind. They always cut a new pencil in half before they sharpen it. Some of these pencils acquire the reputation of being lucky."

"Less than a week ago I came down without my pencil, which, by the way, is a lucky one—every memorandum made with that pencil results in a profit for me—and I borrowed one from a friend on the floor. He handed me a stump about an inch long and said, 'You can use that; it's a lucky pencil.'"

"Sure enough, I made two deals in the morning, and each netted me a handsome profit."

"I was about to make a memorandum of some stock I had bought when my friend approached and said:

"Here, take this pencil and let me have mine again. I've lost on every deal since I loaned it to you."

"Sure enough, I lost on that deal, and the luck went back to the owner of the pencil."

"When you get hold of a lucky pencil, you want to hang on to it."

"Some of the boys have little lucky pencils not more than an inch long, and they guard them as they would their lives."

"If you, through carelessness or accident, cause them to break the lead point they lose whatever regard they have for you and forever afterward regard you as inimical. Some of them wouldn't take \$5 for a little piece of pencil worth considerably less than a cent."—New York Press.

STING OF THE BEE.

Poisonous Properties That Lurk In the Honey Maker.

The chemical and toxic properties of the poison of the honeybee have been a subject for long study by a German scientist, Dr. Joseph Zanger. During his investigation Dr. Zanger employed 25,000 bees. He found that the fresh poison is clear, like water, of an acid reaction, bitter taste and of a fine aromatic odor.

On evaporating and drying at a temperature of 100 degrees centigrade (212 degrees F.) a gummy residue is left. It is soluble in water; with alcohol it forms an emulsionlike mixture. The aromatic odor is due to a volatile substance, which disappears on evaporation and is not poisonous. The poisonous constituent is not destroyed by short boiling nor by drying and heating the residue to 212 degrees F. nor by the diluted acids or alkalis.

Dr. Zanger has proved the existence of formic acid, but he has also proved that that is not the poisonous principle. The latter is an organic base, soluble, with difficulty, in water, but kept in solution by an acid. On the healthy skin neither the bee poison nor a 2 per cent solution of the poisonous principle has any effect, but they act as powerful irritants on the mucous membranes.

His tests made on rabbits and other animals show that when the poison is brought in contact with the eye there follow lachrymation, hyperemia, chemosis and croupous membrane or conjunctiva. The general condition is also affected; the animals become melancholy, take no food, but are very thirsty, and the urine shows small amounts of albumen.—Philadelphia Record.

A Louisville Slander.

Not long ago there was put in at the Louisville telephone exchange a switch board run entirely by a battery, so that the amount of calls was definitely indicated by expenditure of force. The chart showed correct business conditions up to 10 a. m., and then there came a most unaccountable drop. The electrician was bothered. There must be a leakage, a weakness, somewhere. Again and again the same remarkable and instantaneous drop showed on the chart, and the perplexed telephone engineer went from Chicago to Louisville to investigate.

He was with a group of anxious managers and directors waiting for the significant hour to approach, when suddenly some one looked at his watch and called, "Gentlemen, we are losing time," whereupon one and all arose and passed to the nearest buffet. That was crowded, and they tried another, only to find it also thronged. Then the electrician looked at the hour. It was just past 10 o'clock, and a daily scene was being enacted. All Louisville was out taking a drink.—Chicago Times-Herald.

Circumstances Alter Cases.

Circumstances are still much in the habit of altering cases. It is said that a Yorkshire socialist was explaining to a friend the principles of his belief, and that he made the statement at the outset that all possessions should be shared equally.

"If you had two horses," said the friend, "would you give me one?"

"Of course," said the socialist.

"And if you had two cows, would you do the same?"

"Of course I should."

"Well, suppose now," said the friend slowly, "that you had two pigs, would you give me one of them?"

"Eh, tha's gettin' over near home," said the other slyly. "Tha knows I've got two pigs."—Youth's Companion.

Why They Were Armed.

To such a pitch of exasperation did the practice of using buttons in the shirt drive the men of the middle ages that they adopted the plan of wearing brass or steel armor, fastened together with metallic bolts. The popular idea that men wore armor in order to fight in it is manifestly absurd, since no man could possibly have fought when increased in half a hundredweight of metal. Armor was worn solely in order to avoid the worry of shirts with missing buttons.

There were distinct advantages connected with the chain steel shirts. When one of these garments came home on Saturday night from the washerwoman, the owner could feel reasonably certain that the metallic clasps at the neck and in the bosom were all in their proper places, for no washerwoman could have succeeded in detaching them without the use of a cold chisel. If it did so happen that the washerwoman's husband had been run over by a steam roller while wearing a steel shirt belonging to one of his wife's customers, and one of the metallic fastenings had thereby been injured, the customer in question could not accuse his wife of negligence and demand to know why she failed to keep his shirts in proper repair.—London Answers.

Russia's Magnificent Churches.

"The churches in St. Petersburg are so magnificent that they go to your head," writes Lillian Bell in The Ladies' Home Journal. "We did nothing but go to mass on Christmas eve and Christmas day, for although we spent our Christmas in Berlin we arrived in St. Petersburg in time for the Russian Christmas, which comes 12 days later than ours. St. Isaac's, the Kazan and Sts. Peter and Paul dazzled me. The icons or images of the Virgin are set with diamonds and emeralds worth a king's ransom. They are only under glass, which is kept murky from the kisses which the people press upon the hands and feet. The interiors of the cathedrals, with their hundreds of silver iconostases and battleflags and trophies of conquests, look like great bazaars. Every column is covered clear to the dome. The tombs of the czar are always surrounded by people, and candles burn the year round. Upon the tomb of Alexander II. under glass, is the exquisite laurel wreath placed there by President Faure. It is of gold and was made by the most famous carver of gold in Europe."

Lucid Explanation.

An Irishman walking over a plank sidewalk, in counting some money accidentally dropped a nickel, which rolled down a crack between two of the boards. The Irishman was much put out by his loss, trifling though it was, and continued on his way, swearing audibly.

Early the next day a friend, while walking by the spot, discovered the Irishman deliberately dropping a dollar down the same crack through which he had lost his nickel. The friend was of course much astonished at what he saw, and desiring to learn why Pat should deliberately, to all appearances, throw away money inquired his reasons and was fairly taken off his feet by the following explanation:

"It was this way," said Pat. "It's yesterday I was passin this way when I lost a nickel down that hole. Now, I reasoned that it wasn't worth me while to pull up that sidewalk for a nickel, but last night a scheme struck me, and I am dropping down the dollar to make it worth me while."—Chicago News.

At the Wrong Door.

"There be a stranger at the outer gate," said the bellboy with a low bow, "who knows not whence he comes."

"Tis passing strange," quoth St. Peter. "What sayeth he concerning his home on earth?"

"But little," exclaimed the youth. "He says that it be located on a river so thick with mud it can be walked across in summer. He says that where he lived, life is held at naught and that money is the one god worshipped. That the most successful pickpocket is the best man, and that one day he may be worth \$2,000,000 and the next be compelled to borrow 10 cents for a plate of baked beans. That it was a city of fat, diamonds and soiled linen, and that"—

"Hold, sirrah!" exclaimed St. Peter. "Tis enough. Register him from Chicago and send him down."—Detroit Free Press.

War and Soldiers.

Old Thomas Fuller spoke thus of war in his "Holy State": "A soldier is one of a lawful, necessary, commendable and honorable profession; yea, God himself may seem to be one free of the company of soldiers, in that he styleth himself 'a man of war.' Now, though many hate soldiers as twigs of the rod war, wherewith God scourgeth wanton countries into repentance, yet is their calling so needful that were not some soldiers we must be all soldiers, daily employed to defend our own, the world would grow so licentious."

Color East and West.

California is beautiful in color—red, purple, yellow. No other state and few countries can compare with it in this. When Californians come east, however, they are delighted with the scenery and they explain that it is the greenness of everything. Their colors are more gorgeous, but they are high and hot and dry, the damp, dark tones of the east are an aesthetic bath.—New York Commercial Advertiser.

It is calculated that if the children under the care of the London school board were to join hands they would reach from London to Carlisle, a distance of 300 miles.

A clock in St. Petersburg has 95 faces, indicating simultaneously the time at 80 different spots on the earth's surface, besides the movements of the earth and planets.

SEEK METHODS THAT MAKE WELL. Allopathic, homeopathic, hydropathic, chiropractic, psychopathic, electric, physio-medical, dosimetric, bio-chemic, orthoid and other systems investigated and the best principles of each applied for conditions in which they have proven the most beneficial. No one school of medicine has all the good things; there is some one remedy that is best of all in each. The real physician must represent not one school, system or pathy, but the healing art in all its entirety, study and compare all curative measures, then select and apply the pleasantest, safest and surest. It is better to cure by any system that will accomplish such result than be obstinately orthodox in methods. The motto of a true healer is "Not cure or creed, but cure."

TO THE PUBLIC It is but just to you and myself that I make some mention of my fitness for the work I would undertake. I came of a medical family. I have attended and hold credentials from leading colleges of various schools or systems of medicine. For years I have successfully conducted a large practice. I have held high office in state and national medical societies and received honorary professional recognition abroad. I have had considerable hospital experience, as well as professional associate of distinguished experts and familiar with their methods; am something of a medical author and have been professor in reputable medical colleges. These statements can be easily verified. If they commend me to your confidence, it will give me pleasure to professionally advise and assist, heartily and all who need and desire my services. Office practice preferred, but if properly arranged for, visits will be made any distance. Respectfully,

ROSARY BEADS.

They Were In Use Among the Hindoos Before the Era of Buddha.

The prevailing idea in regard to a rosary is that it belongs solely to followers of the Catholic religion. But take away the cross that is hanging to the beads and we find that one must turn to the dim, mysterious east for the origin of the rosary, for it is among the temples of India, China and Japan that the first sign of the practice is to be found. Ancient pictures of the Hindoo gods depict them with chaplets of beads in their hands, and it is believed that this method of keeping count of their many prayers was in use among the Hindoos before the era of Buddha, or at least B. C. 500.

The use of the rosary seems especially suited to an eastern clime and to the repose of an oriental mind. The Buddhists are fond of using very smooth beads of glass, polished jade or coral, and it has been thought that the smooth, cool beads gliding through their fingers as they murmur the holy name for thousands of times help them to arrive at that state of holy abstraction from earthly things which is so much prized among the followers of Buddha.

The favorite Japanese rosaries are made of polished wood, crystal, onyx and chased silver, and the Japanese Buddhists repeat in endless devotion "Namu Amida Butsu" ("Save us, Buddha"), while their Chinese brothers have the blessed name "O-Mi-to-fu" forever on their lips. A rosary of very great size was recently brought from a temple in Kyoto, Japan. The largest bead is about six inches in diameter, and the rosary entire is about 24 feet long. The huge beads are of dark brown polished wood. They are hollow and have each a figure of a god inside the little shrine, which can be seen through a lattice of brass work.—Cincinnati Enquirer.

FALSIFIED HER AGE.

A Court Trial That Disclosed a Queer Phase of Russian Society.

Even in Russia, it seems, despotism does not go the length of forcing a woman to tell her age or of punishing her for stating it inaccurately. A certain Princess Engalyteff was recently tried at Moscow and sentenced to life-long internment in the province of Oboletz for embezzling 140,000 rubles. After the proceeding in court had come to an end and after the noble lady had retired to the country for her somewhat prolonged rest from urban gayeties and temptations a too careful official discovered that among the papers in the case was the princess' certificate of baptism, and that she had changed the date of it from 1847 to 1847. Instantly this grave crime was brought to the notice of the authorities, and the convicted embezzler was summoned to meet the charge of falsifying an official document. Then a curious fact was disclosed, and a surprising amount of light was thrown on Russian society.

The Prince Engalyteff, who was cited as a witness by the prosecutor, said that whether his bride was 20 years older or younger than her certified age was a matter of absolute indifference to him. All he could say was that he received the sum of 3,000 rubles for giving the lady his name, that immediately after the marriage ceremony he procured for her a separate passport, and that since then he has known nothing more of his wife or her private affairs. The jury gallantly declined to convict the accused princess on the "trivial charge about a woman's age," and she was sent back to her provincial exile.

Princes evidently come cheap in Russia, and this is perhaps the most interesting bit of news in the whole story.—New York Times.

A Disastrous Ending.

Two Detroit merchants were sitting on adjacent stools and taking a 15 cent lunch, when one asked the other if he consulted his wife in his business affairs. "Can't do it," was the response. "I've tried it a dozen times a month for years, but it always winds up just about as it did yesterday. I asked her if she thought she could discuss a little matter of business calmly and dispassionately. She said she could, but had never known me to be able to do so. I complimented her sarcastically on her 'angelic' temper, and she at once accused me of being angry. I told her that I was regarded among men as having a very equable disposition and that my employees called me Old Snivvly. She called attention to the fact that her pet dog, that weighs about a pound, was called Danger. Then I told her straight from the shoulder that I declined to be made angry by her taunts and odious comparisons, but served pointed notice that I was going to have the respect due the head of the house. She laughed cheerily and declared that I was entirely too touchy."

"But what about the business conference?"

"Oh, I slammed the door and left."—Detroit Free Press.

Ice Broke the Spell.

There is a curious little tale about Captain Bagot, M. P. for South Westmoreland, which cannot fail to interest those superstitiously inclined. It is said that, some generations ago, a witch cursed Levens Hall, the seat of Captain Bagot, and said that there would be no direct male heir to the estate as long as the Kent—the river which runs through the grounds—flowed. Such has indeed been the case, until in 1895, when, owing to the severe frost, the Kent was, for a time, entirely frozen up, and a few months afterward Mrs. Bagot presented her husband with a little boy.—London Graphic.

How a Bashful Man Got a Wife.

Blusher is the most bashful man I ever knew."

"How on earth then did he come to get married?"

"He was too bashful to refuse."—Boston Traveler.

Old Things.

"As easy as an old shoe," is a familiar saying," said Mr. Staybolt, "and there can be no doubt that an old shoe is a mighty comfortable thing. After we have worn the new shoes, close fitting, hard and formal, how gladly we put them off, and with what joy we put on the shoes that are old and worn and familiar to the feet! Old shoes, however, are not the only things old that we like. We like an old bed, if it is not too old, but just old enough, so that while still soft and comfortable it is also shaped somewhat to the body, which it supports at every point, yielding a degree of comfort which not the finest of beds can afford when it is new.

"But it is so with all things old, that are not too old, including old habits. We cling to them so long as they give us comfort, and we hate to change. We are creatures of habit, who would if we could follow to the end along the first comfortable rut we fall into and never look out above its sides. And it is well for us that our shoes wear out and that we have to buy new ones and wear them, that we are in various ways compelled to change, that we are rooted out now and then and set going anew."—New York Sun.

The Passion of the Hour.

Every year modern habits become more unlovely and modern sensibilities more blunted. The preservation of what is beautiful, per se, at the present time is almost always ridiculed, unless it can be shown to be joined to some profit or utility.

The characteristic passion of the hour is greed—greed of possession, desire of acquisition and passion for ostentation. Trade has become an octopus embracing the whole world. The thirst for gain engrosses all classes. Beauty, unless it be a means of gain, is to the temper a useless, or worse than a useless, thing; it is regarded as a stumbling block and incubance. It is doubtful if even the power of perceiving what is beautiful has not in a great measure left a large part of the population in all countries. Modern cities would not be what they are now had not the race to a great extent grown color blind and become without the sense of proportion. Modern builders and modern engineers would remain unoccupied were not the generations which employ and enrich them destitute of all artistic feelings.—Ouida in Fortnightly Review.

The Birthplace of Josephine.

Fort de France, Martinique, is the strongest fortified point the French own in America. It is both a military and naval station, and a fort was erected on a mountain top three years ago, which has since been improved and strengthened by some of the most modern guns known in warfare.

During the civil war the United States cruiser Kearsarge chased the Confederate blockade runner Alabama into the harbor, and was on the point of opening fire on her when the authorities forbade it. Here they remained for some time, and during a stormy night the Alabama slipped out and disappeared in the Caribbean sea.

Several times the place has been badly damaged by tropical cyclones, during which hundreds lost their lives. It is noted as being the birthplace of the Empress Josephine; a life size piece of statuary of her adorns the principal plaza. The fort has had for years but one family—the king of Dahomey and his six wives, whom the French captured after great trouble in the African wilds and imprisoned.—Philadelphia Record.

His Two Questions.

"I say, pa," began little Clarence Callipers, with the rising inflection of one who earnestly desires to acquire important information, "what?"

"Oh, I don't know," replied his long suffering sire wearily.

"Yes. But the question I wanted to ask isn't foolish, pa."

"H'm! If it isn't foolish, you may ask it. But remember, just one question and no more."

"Well, pa, there are two of 'em that I want to ask. One is, which is the smartest, the man who knows enough to know that he don't know much, or the man who knows enough to look as if he knew everything? The other is, if the end of the world was to come and the earth be destroyed while a man was up in a balloon, where would he land when he came down? And, pa, I don't know which one of 'em to ask."—Pearson's Weekly.

Hunger Madness.

The sufferings of pellagra are those well known in times of famine. The effects sometimes do not entirely disappear. A woman of my acquaintance near Monza, who had the pellagra some years before, was considered cured. She was the wife of a prosperous shopkeeper when I knew her. The only remaining trace of her malady was that from time to time she stopped in conversation, a look of anguish came into her eyes, and she would say in her dialect: "Il pan l'è bon, e il vin l'è bon ma il pan l'è bon!"—Bread is good, and wine is good, but bread is good! The horror of that suffering from starvation had never left her.—"Hunger and Poverty in Italy," by Mrs. Dario Papa in North American Review.

Anchovies.

Sir Walter Scott used to tell a story of one of the nursery gardeners of his day: "An old friend of mine having asked him to supply him with a dozen anchovies, he replied, 'He had plenty, but being a delicate plant they were still in the hothouse.'"—Household Work.

The library of congress ranks sixth

among the libraries of the world in its present contents. France has the largest, England next; then comes Russia, and Germany follows with her libraries in Munich, Berlin and Strassburg, the last named holding almost equal rank with ours in Washington.

Worth Knowing About Fruits.

If a man persists in using or trying to use that for which he has neither power for digestion nor assimilation, he must, without doubt, pay the penalty. To many persons strawberries are such a violent poison that a single dish will produce a rash in less than two hours. The cooking of the fruit seems to destroy this active, irritating principle, but again, here comes our fashion of adding sugar. Canned or preserved fruit, as well as jams and kindred articles, are to be condemned on account of the mass of sugar used. With the fruits it is more prone to fermentation, and even if the sugar is inverted we have a far greater amount than can be cared for by the liver, and here is the origin of the "torpid liver" we hear so much about. The liver is not torpid at all, it is simply overworked. The given capacity is exhausted.—Mrs. S. T. Rorer in Ladies' Home Journal.

The Chief Burgess of Milesburg, Pa., says DeWitt's Little Early Risers are the best pills he ever used in his family during forty years of housekeeping. They cure constipation, sick headache and stomach and liver troubles. Small in size but great in results. Geo. M. Bell & Co.

BIG KNIFE AND BOLD TRAMP HOLD UP CAPT. M'DONALD

This morning while Capt. James McDonald was posting his books at the lumber office a tramp came in and asked for money for a lunch.
The captain was not inclined to listen when the tramp pulled open his coat and exposed to view a long and ugly looking knife. Mr. McDonald hastily complied with the fellow's request for 10 cents. He was very much scared.
The police are looking for the tramp.

A KILLING AT SODUS.

One Tramp Shoots Another and the
Bullet Will Prove Fatal
Tho' Victim Yet Lives.

TRAGEDY IN FRONT STORE.

The Officers Are Scouring the
Country to Find the Murderer
Who Is in Hiding.

Two tramps quarreled in front of Ed. Buckman's store in Sodus last night. Result, one combatant shot the other with a revolver and the wound is probably fatal. The man who fired the shot is being hunted by Sheriff Ferguson.

Last night two hobos named C. W. Seaver and William Smith, who have been engaged in picking berries for the farmers around the little town of Sodus, had a quarrel in front of the general store of Edward Buckman which will probably end in the death of Seaver, and Smith, if captured, will go to prison for a long term of years.

The two men, Seaver and Smith, had been together early in the day and apparently were good friends. About 7 o'clock last night they were standing in front of Buckman's store when suddenly the passersby were attracted by loud words and the next moment Smith pulled a revolver and shot his companion in the bowels and then ran.

Seaver was carried to a neighboring house where doctors were called and everything possible done to relieve his suffering but at an early hour this morning he was reported as rapidly growing weaker and the attending physicians pronounced his wounds fatal. Sheriff Ferguson was at once notified and he in company with Deputy Sheriff Tennant visited the scene of the shooting and were out all night scouring the country for the murderer. It is believed that Smith took a Big Four train for the south and the sheriff has notified all officers to be on the lookout for the man.

Smith is a young man about 25 years old, about 5 feet, 6 inches tall, blue eyes, light hair and wore a white duck summer hat. At the time of the shooting he carried an open face silver watch and wore a gold ring with black setting with the initial letter W in the center.

Seaver says he has relatives living at his old home at Boston, Mass.

AN APPEAL.

It Has Been Taken Against Postoffice
Change

The majority of the citizens of Benton Harbor are strongly against the proposed change of location for the postoffice and Congressman Hamilton and Senator Burrows have been appealed to in order to ascertain a method of changing the plan. The postoffice inspector who recommended the change is a Battle Creek man and his official career will be made interesting if the office is moved as proposed.

It is claimed that nine-tenths of the patrons of the office are against moving the location to Water street.

BOUND OVER.

Shoplifters Failed to Get Bonds and are
Now in Jail.

Thomas Campbell, Rose O'Donald and May Ash, the shoplifters, who had their examination yesterday were bound over to the next term of the circuit court under bonds of \$5,500 each. Their friend from Chicago who arrived to attend the examination and who boasted of having money enough to get them out of the scrape was conspicuous by his absence after the justice had made known the amount of bonds required.

The two women were seen at the county jail this morning by a NEWS reporter and when asked if they expected to get bonds Miss Ash replied "That her friends were not dead, but gently sleeping." They seem to be happy and one of them said that the officer of St. Joseph was "onto his job."

A FINE PARK.

Ex-Mayor Bell Working on a Good
Plan.

Ex-Mayor Bell is working on a scheme to secure for Benton Harbor a large park of 143 acres at Double L gap, the property now being owned by John Higman, Jr., of St. Joseph.

The doctor has devised a plan whereby with the assistance of the railway and transportation companies the mammoth park will be in easy reach of the city.

This would be an ideal place in the minds of the thousands of excursionists who come here every Sunday. One if not both of the street car lines would extend their tracks there.

Benton Harbor people have long wished that Double L gap could be converted into a public park and Dr. Bell has found the plan that will make the hoped-for park a financial possibility.

The details of the plan are not yet sufficiently matured for publication but they are certain to command the unanimous approval of the public.

DISGUSTED FISHERMEN.

It Made Them Ill to See an Old Time
Angler Catch Trout.

One day a Boston party, on a fishing trip to Moosehead, came across one of the old school fishermen. He was up off the mouth of Tomhegan stream and was fishing out of a lumberman's bateau. It developed later that he was the cook for a crew of river drivers. On the bank near at hand stood the cookee, or his helper. The cook had thrown about a peck of fable refuse into the lake in order to "tote" the fish, and over that lure he was having great luck. His pole was of the jib boom variety, and when a fish bit he would derrick it over his head into the bushes where the cookee was stationed.

The Boston men from their canoes watched operations with all the disgust of the true sportsmen.

"Got enough for supper yet?" shouted the fisherman over his shoulder as he set another great trout flumping into the bushes.

"No; better catch six or eight more," shrilled back the cookee.

"Say, how many fish do you two fellows usually eat for supper?" shouted a Boston man who didn't understand the situation.

"When you've cooked for 22 river drivers as long as I have," yelled the cook, derricking another fish, "you'll know more about empty mail bags."

Hardly was this enigmatic utterance out when there came a tug at his line that was nothing short of tremendous. He twitched. The fish didn't come. He braced, set his jaws and pried. His line only sawed the hissing water.

"Play him! Play him!" screamed the excited sportsmen from the city.

"Play your grandmother!" bellowed the cook. "I ain't here to play. I'm here to fish." And as he spoke he boosted over his head a 15 pound laker. Any man in the Boston crowd would have given \$10 to have played him an hour at the end of an eight ounce rod. 'Twas too much for their nerves. They came away.—Lewiston Journal.

VOLUNTEERS OF HAVANA.

How They Were Won With a Pocket
Handkerchief Promise.

In 1868, when the revolution of ten years in Cuba began, no volunteers existed in Havana worthy of being called such. There was only one old regiment, and when Governor General Lersundi, then of the island, tried to complete this regiment he found the task difficult of accomplishment on account of the prevailing unwillingness to enlist. But just at this time, most providentially for the relief of the dilemma, some unknown hand covered the walls of Matanzas, near Havana, with huge posters promising each Spaniard his passage home and the privilege of carrying away with him whatever his pocket handkerchief could contain in the event of his enlistment.

The effect of this stimulus to the flagging pulse of the public was electrical, and the enrollment of 50,000 men followed within 48 hours. The volunteers thus came into existence with their chiefs in the majority. But the ruined merchants of the city of Havana soon found out and objected to the newly risen power. This opposition increased upon the arrival in Cuba of the new governor general, Duice, who came in 1869 as representative of the revolutionary government in Spain. He was a man of good faith, empowered by the government to grant Cuba all the reform she coveted and that had lately been offered. He would undoubtedly have put a term to the revolution, averting all the ruin and devastation which followed. But such an easy and magnanimous course did not suit that class which faced inevitable financial ruin as a consequence of such a policy.—San Francisco Chronicle.
